INTRODUCTION & ACKNOWLEDGEMENTS

Each fall, the Chester Fritz Library asks University of North Dakota academic departments to provide a list of published research and creative activity by their faculty, staff, and students during the previous year. The Library makes this request in the interest of showcasing the breadth of scholarship being conducted at UND. Once received, the individual lists are organized, edited, and formatted for inclusion in this bibliography.

Thanks are given to everyone at UND who contributed to the formation of this document. A special thank you is given to the Harley E. French Library of the Health Sciences. Their staff compiled and edited the considerable number of publications from the School of Medicine and Health Sciences, before forwarding that material to the Chester Fritz Library for inclusion in the bibliography.

Readers may notice slight stylistic differences between the listing for the School of Medicine and Health Sciences, and the lists preceding it. This is due to the different nature of the citations provided by the Library of Health Sciences. Due to the publication schedule, there was insufficient time to standardize them.
AUTHORS OF BOOKS AND MONOGRAPHS

EDITORS of BOOKS or JOURNALS

Gourneau, B. and K. Smart. An art gallery of living history through the eyes of technology. In, Proceedings of Society for Information Technology & Teacher Education International Conference 2008. Chesapeake, VA.
